The Prevention of COVID-19

Organizers and Secretariat establish procedures and guidelines issued by the local government and to manage exhibitions. We appreciate all visitors also follow the cooperation in infection prevention.

Please note when any infected person was found, secretariat will provide your data to the Japanese government or the local government according to their request. Appreciate your understanding.

We will inform you as soon as there is any update.

For VISITORS

1. Please use pre-registration on the web. If you register as a visitor at the registration counter on site, you may not be able to enter the exhibition because of limit of visitors. Preference is given to pre-registration visitors.
2. When any infected person was found, secretariat will provide your data to the Japanese government or the local government according to their request.
3. Please do not visit the exhibitions when you have following symptoms. We don't allow any people who has a symptom to the exhibition.
 - (A) A fever
 - (B) A cough, sore throat, feel suffocated
 - (C) Under follow-up for the health by the public health center
 - (D) If applicable to the quarantine period designated by the Japanese Government.
 - (E) In close contact to COVID-19 positive.
 - (F) In other bad physical condition, ex. Dysosmia, cacogeusia, a sense of fatigue and so on.
4. Wearing masks anytime and anywhere in exhibition, Washing hands or disinfection hands with alcohol at the entrance.
5. Keeping a physical distance 1.0m between another person.
6. Arranging a business meeting with exhibitors in advance if you can. Do not have a long meeting in compact cluster place.
7. Checking your fever on the very day before you visit the exhibition. Cancel your visit if you feel any problem on your health.
8. Recording your activities in the exhibition. Ex. which booths you visited, who you talked with, what time did you visit a booth.
9. Secretariat requests to all attendants included exhibitors, visitors and staffs to install the application recommended by Osaka prefetural government or the Japanese government. These application follows your activities and informs you if you contacted COVID-19 positive.
